

FOR YOUR INFORMATION

CHRIS WHITMIRE

Product Manager, Gypsum Systems

National Gypsum Company

Manufacturer of the PURPLE® family of products

Chris Whitmire oversees the innovation, development and introduction of gypsum board and plaster products/systems for National Gypsum, one of the largest drywall producers in the world and manufacturer of the PURPLE® family of products. He leads communications efforts with National Gypsum's field sales staff for technical updates and new product launches.

Whitmire also oversees and leads National Gypsum's outstanding Construction Services Team, 800-NATIONAL. He also serves as point person for the company's charitable efforts with Purple Heart Homes.

Whitmire began his career at National Gypsum in 2011 and prior to his current position, served as a PermaBase Market Development Representative and Territory Manager in Sales.

He attended Muskingum College in New Concord, Ohio, and graduated with a Bachelor's Degree in Business Administration. Whitmire has also earned many certifications including Florida State Certified General Contractor (CGC), LEED Accredited Professional (LEED AP) and Construction Documents Technologist (CDT).
